WHAT LEADS TO SUICIDE?

There's no single cause. Suicide most often occurs when several stressors and health issues converge to create an experience of hopelessness and despair. Depression is the most common health condition associated with suicide, and is often undiagnosed or untreated. Most people who actively manage their mental health conditions lead fulfilling lives. Conditions like depression, anxiety and substance use problems, especially when unaddressed, increase risk for suicide.

Some People are More at Risk for Suicide than Others

HEALTH FACTORS

If a person talks about:

- Feeling hopeless
- Having no reason to live
- Being a burden to others
- Feeling trapped
- Unbearable pain

Behaviors that may signal risk, especially if during a time of transition, stress or loss:

- Sleeping too little or too much

MOOD

People who are considering suicide often display one or more of the following moods:

Most people who take their lives exhibit one or more warning signs, either through what they say or what they do.

Reaching Out Can Help Save a Life

SUICIDE IS A LEADING CAUSE OF DEATH, AND IT'S PREVENTABLE

By keeping secure firearm storage in mind, you can help reduce the number of suicides involving firearms.

LEARN THE RISK FACTORS AND WARNING SIGNS OF SUICIDE

If you are worried about a friend or family member, trust your gut and don't wait for them to reach out.

LET THEM KNOW YOU CARE

Ask them directly about suicide and encourage them to seek help. Talking about suicidal thoughts and showing concern will not put someone at greater risk.

IF YOU ARE CONCERNED ABOUT A LOVED ONE

Always store firearms securely and consider temporary off-site storage for firearms when not in use.

IF YOU'RE GOING THROUGH A DIFFICULT TIME

If lawful where you live, consider giving the firearms and gun lock keys to a trusted family member or friend.

DID YOU KNOW?

Firearms are used
in 50% of all
suicides in the
United States.

Firearms Storage For Your Lifestyle

As a gun owner, you can choose from multiple options for safely storing and protecting your firearms when they're not in use.

CABLE LOCK

Starting at \$10

Requiring either a key or combination to unlock, an inexpensive cable lock runs through the barrel or action of most firearms to prevent it from being loaded and fired.

GUN CASE

Starting at \$20

A gun case is an affordable storage solution for those looking to secure, conceal, protect or legally transport a firearm. Be sure to lock the case with an external device for added security.

LOCK BOX

Starting at \$25

With an integrated lock, storage boxes provide reliable protection for firearms. Electronic boxes can be accessed only by using a special code or biometrics.

FULL SIZE GUN SAFE

Starting at \$200

A gun safe allows you to safely store multiple firearms in one place.
